UN-SWAP 2.0 PERFORMANCE BY INDICATOR (2020-2021)

PERFORMANCE HIGHLIGHTS IN 2021

Most significant gains

- In 2021, ECLAC exceeded requirements for four indicators and met them for another nine indicators.
- ECLAC continued to progress in the areas of Gender architecture and Capacity assessment, increasing from meets to exceeds requirements and approaches to meets requirements, respectively.

Areas for improvement

- UN Women encourages ECLAC to focus on the three remaining indicators rated as approaching requirements: Financial resource tracking, Equal representation of women, and Coherence.
- With concerted effort on the three remaining indicators, ECLAC is well positioned to achieve full compliance in the current UN-SWAP implementation period.

* Performance Indicators 5 on Audit and 8 on Gender-responsive performance management are jointly reported for all UN Secretariat entities by OIOS and DMSPC, respectively.
